Report of the
SCHOOL BOARD

Report of School Board.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Landaff:

I herewith present to you my fifth annual report of the condition of your schools.

ATTENDANCE.

A study of the statistical part of this report will show that the attendance in most of the schools has been very satisfactory and that the high standard of the past few years has been maintained. The low per cent. of attendance and the large number of tardinesses at South Landaff were caused by some transients who have left the district.

The majority of the children of permanent residents seem anxious to secure an education and are very regular and punctual in their attendance at school. Poor attendance usually emanates from transient population and from homes in which parental care and influence are lacking.

The record of attendance for the Landaff schools as shown in the reports of the Superintendent of Public Instruction for several years has been as follows: For the year ending July 15, 1907, 83 per cent., 1908, 87 per cent., 1909, 87 per cent., 1910, 86 per cent, 1911, 93 per cent, 1912, 92 per cent, 1913, 93 per cent, 1914, 92 per cent. The record for the last four years has been very good for a town in which the schools are all of the rural type. Every pupil and citizen should take an interest in this record and try to improve it both for the benefit that comes

to the pupils through regular and punctual attendance and because of the additional aid that will come from the state. Every day's attendance means a higher average attendance, upon which one of the sources of state aid is based.

SCHOOL BUILDINGS.

The Blue schoolhouse was throughly repaired and new desks were added during the spring vacation. This now is one of the best rooms in town. Many other repairs, including shingling at the Center, have been made during the year.

The Center and Ireland schoolhouses need to be thoroughly repaired and equipped with new furniture. This work should be done at the Center this year as this is the larger school and the building here is in a worse condition than the one in Ireland. The building at Ireland however should have at least one coat of paint during this year.

At Foster Hill plastering is needed, and the room should be newly papered. At Scotland plastering needs patching and the room should be painted and papered. The toilets here need repairing also. At South Landaff the roof needs to be patched, if not reshingled, and the toilets should be repaired.

In the report of Supt. Morrison on his inspection of the Landaff schools February 4, 1914, he says, "I particularly urge that the district should provide annually for a certain sum of money, which need not necessarily be large, for repairs to schoolhouses and that this policy should be continued until all the schoolhouses are in first class condition."

TEXT BOOKS AND SUPPLIES.

During the past year $74.39 has been expended for text books and $23.66 for scholars' supplies. The average cost per pupil for the state is approximately $1.70 while the average cost for Landaff has been but a little more than one dollar per pupil.

New reading material has been added during the past few years so that each class now should read at least half a dozen books in class during a year instead of reading and rereading one book until learned verbatim as was formerly the custom. We learn to read by reading and a parent should see that his child is provided with good reading material in the home as well as at school.

New histories, physiologies and geographies have been provided to take the place of the antiquated, dilapidated books used a few years ago.

Several maps were purchased during the past year with a part of the Literary Fund, as provided by law.

THE SCHOOLS.

At no time in the last five years have the schools been in so good a condition as at the present time. The teachers are efficient and conscientious and, without exception, are working for the best interests of their pupils and of the town. There is a better spirit on the part of the pupils than formerly and indifference for an education has almost entirely disappeared. Most of the boys and girls do not seem satisfied to drop out of school as soon as they become sixteen but are anxious to go to high school.

In Mr. Morrison's report he summarizes his views of schools as follows: "In general I rate two of these Landaff schools as excellent, a credit to any town. Two of them I rate fair, but wholesome and useful. Two of them are to be rated poor." The last two have been so improved during the past year that they are as good as any and without any doubt would be rated excellent by the State Superintendent now. The other four schools are fully as good as they were a year ago.

The best way to find out about the schools is to visit them and to learn first hand just what is being done rather than

depend upon gossip and information from some person who possibly has some petty grievance and who knows absolutely nothing about existing conditions.

FINANCES.

The teachers' salaries for the present term have not been paid and will amount to $560.00 for the ten weeks. This will leave a balance at the end of the winter term considerably smaller than was the balance a year ago. It must be remembered however that the schools have been run thirty-four weeks this year instead of thirty weeks.

The salary of the superintendent for thirteen months has been paid to the treasurer of the supervisory district.

$187.00 has been paid for high school tuition during the past year. There are seven pupils in high schools now and several more planning to enter high school next fall so that $300.00 will need to be assessed for this purpose.

One hundred dollars seems to be the amount needed for books and supplies each year. As $9.00 of the flag money remains unspent it will not be necessary to assess any for this purpose this year. The amount required by law, $802.50, is the same as last year. This makes a total of $1,202.50, besides the officers' salaries, that will have to be assessed.

The State aid received in December was as follows:

For average attendance,	$ 90.00
For qualified teachers,	60.00
For tuition rebate,	16.00
For superintendent's salary,	212.50
Literary Fund,	79.20
	$ 457.70

The amount for qualified teachers this year will be $68.00. The amount for tuition rebate will be larger as the number of pupils has been larger. The amount for average attendance should be larger as the school year has been increased.

The amount for the support of the schools above that required by law should be as large at least if the schools are to be maintained thirty-four weeks. The amount necessary for repairs will depend upon what repairs are to be made during the year.

CONCLUSION.

The coöperation of the Grange and of those people who have the best interests of the schools at heart has been very gratifying. It is hoped that the Grange will continue its policy of holding an annual fair. The ribbon prizes and the framed picture and the money prizes of Mr. Stevens have been much appreciated.

The cordial support of the school board has been appreciated by the teachers and the superintendent.

Respectfully submitted,

JOHN S. GILMAN.

February 20, 1915.

Roll of Honor.

Year Ending July, 1915.

Howard S. Bronson, Genevieve Flanders, Carrie Campbell, Edith Campbell, Roger Barrett, Vianna Hodge, Hazel Wetherbee.

Summary.

Year Ending July, 1915.

Total number of pupils registered, including those in high schools	119
Average daily attendance	90.87
Average daily absence	5.57
Number of tardinesses	126
Visits by citizens	198
Visits by superintendent	127
Average salary of teachers per month	$37.34

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens of Landaff:

I herewith submit to you my sixth annual report of the condition of your schools.

Attendance.

The average attendance for all the schools for the year ending last June was 94.22 per cent. This was the best attendance the schools have ever had. There was also a marked decrease in the number of tardinesses. From statistics it is found that the average attendance for the period of five years under supervision has been seven per cent higher than was the average attendance for the five years previous to 1910.

The amount received from the state for average attendance this year was $170, an increase of $80 over the amount received last year. Of course this increase was due in a large measure to the extra four weeks in the last school year.

If the rule, "Good attendance means good schools", holds true it is easy to draw your own conclusions regarding your schools as a whole.

Enrollment.

A glance at the statistical table will show that the enrollment during the past year has been large, 107 different pupils being enrolled during the past two terms. In addition twelve boys and girls from this town have been attending high schools.

About twenty pupils are in the eighth grade this year. This means that the number attending high schools another year will be considerably larger than at the present time. This is a good record for a small town, especially when it is remembered that five years ago not a boy or girl from Landaff was attending a high school.

Some measure should be taken to relieve the overcrowded conditions at the Blue school. Forty-five pupils scattered through the eight grades require more attention than any one person can possibly give them. Miss Bishop is to be commended for untiring efforts and devotion to her work.

School Work.

The work in the schools as a whole has made good progress during the past year. Of course weak spots appear from time to time, and these we try to remedy as rapidly as possible.

Some people have contended that it was impossible to prepare pupils in your schools for high school. If Mr. and Mrs. Pessimist will take the trouble to look up the record of the high school pupils they will find that your boys and girls who are applying themselves to their work are doing well and are a credit to their town.

It is not fair however to expect your boys and girls to do work in thirty weeks that children in other towns are doing in thirty-six weeks. This is particularly true of the upper grades. The boys and girls of Landaff deserve as good opportunities as other children enjoy. This will never be possible until you, Mr. Taxpayer, are willing to support your schools as liberally as other towns do. From the last report of the state superintendent it is seen that the average annual cost per pupil in Landaff was about $2 below the average for the entire state.

Buildings.

The schoolhouse at the Center was thoroughly repaired last summer. This building and the Blue school are now the best in town. One of the good features of each building is the fact that the toilets are in the building so that it is not necessary for the children to leave the building. It would be much better if some similar arrangement could be made at the other schools.

The Ireland building needs a thorough overhauling. This should be attended to before another school year opens. Minor repairs are needed at the other schools, especially in regard to the toilet arrangements.

Vaccination.

Your attention is called to Public Statutes 93;2, as amended by 19, laws 1901, and 90, laws 1909: "No child shall attend any public, parochial, or private school unless he has been vaccinated or has had the smallpox, and this section shall be enforced by the board of health, except in the case of a child who has submitted

to the process of vaccination not less than three times, or who holds the certificate of the local board of health that he is an unfit subject for vaccination. Said board of health shall issue such certificate upon the advice of a registered physician approved by said board of health".

The state board of health will require the local boards to enforce this law at the opening of schools next fall.

Finances.

In looking at the cost of the schools for the past year you must remember that the amount includes the cost of the winter term last year, i. e., four terms or forty weeks enter into this year's expenses.

A great deal of complaint is heard about the increased cost of the schools. Is there any department in your affairs that does not cost more now than it did ten years ago? Does it not cost more to maintain your house and to run your farm?

Some one says: "The teachers are overpaid". Landaff is paying her teachers an average of $9 a week. This does not include the $2 a week that three of the teachers are receiving from the State. The highest salary that any teacher receives will not cause her to hide from the Income Tax collector.

"Supervision is an unnecessary expense". Landaff is paying $212.50 a year towards the salary of the superintendent. This costs sixty-eight cents on a thousand dollars of valuation. Some think that the state tax is higher because of state aid for schools to the different towns. This rate was fixed by the last legislature and does not vary with the amount received from the state.

Some forget that the item of nearly four hundred dollars for high school tuitions has caused an increase of this amount in the total expense. I understand that there are those who begrudge the boys and girls the opportunity of a high school education and think that it is an unnecessary waste of the district's money.

The cost of books and supplies for the pupils also causes discussion among those who do not take the time to investigate the matter carefully. Landaff spends approximately one dollar per pupil a year while the average cost for the state is $1.70 according to the last report of the state superintendent. If the parents

would see that their children did not waste the supplies and abuse the books they would help keep this expense down.

Suggestions.

Visit the schools and see for yourself what is being done.

Encourage the boys and girls to get a good education. They are the men and women of tomorrow and the prosperity of your town will depend upon their successes or failures.

Make the schoolhouses as attractive as possible. Do not allow conditions to exist there that you would not tolerate in your home.

Raise money enough so that the spring term can have fourteen weeks and there can be at least thirty-four weeks in the school year.

Support the teachers and remember that there are two sides to the story that your boy and girl brings home from school.

The cooperation and support of the parents who have a genuine interest in the schools and of the school board have been appreciated. Thanks are also due the Grange for its interest in the schools and for the important part given the schools in the annual fair.

Respectfully submitted,

JOHN S. GILMAN.

February 21, 1916.

BIRTHS REGISTERED IN THE TOWN OF LANDAFF FOR THE YEAR ENDING DECEMBER 31, 1915.
